**NEW  
THIS YEAR!**

This year's summit programming is designed around alumni, but placing special focus on current students and their journey into the "real world." Collectively, the Network will receive **updates from campus**, including stories of impact and **positive change in campus climate**. We'll also discuss our successes in elevating our current Aggies through our new **mentoring program**. We are excited to feature speakers and alumni experts to panel discussions in fields of entrepreneurship, STEM careers, leadership, and financial literacy to benefit both established alumni as well as those new to the professional landscape. Join us as we explore new ways of **GROWING OUR IMPACT ACROSS TEXAS!**
